## GHEORG SEEBACHER

“La curiosità è alla base della comprensione; è perciò essenziale vedere le persone come utilizzatori finali. Dobbiamo cercare di capire i loro valori, contesti culturali e le loro richieste, come future possibilità tecnologiche e collegare, infine, tutti questi aspetti. Attraverso questa comprensione, aspiro, con passione, a sviluppare concetti e implementarli, creando prodotti affascinanti in grado di soddisfare tanto le richieste emozionali quanto quelle funzionali.”

“Curiosity forms the basis of understanding. It is therefore essential to see people as users.

We must seek to understand their values, cultural backgrounds, and demands as future technological possibilities and also connect all of these aspects. With this understanding, I passionately aspire to develop concepts and to implement them by creating fascinating products that meet emotional as well as functional requirements.”

## MICHELE FAINI

“In uno scenario sempre più competitivo nella ricerca, ma appiattito nel gusto, cerco di riportare i miei progetti alle radici della nostra cultura. Il mio obiettivo è soddisfare un bisogno, tenendo conto della ricerca del bello, dell'armonia e dell'estetica, unite alla funzionalità e all'utilità.

Siamo geneticamente padroni di fascino ed eleganza, grazie a secoli di fastosa cultura artistica posta agli apici del mondo: la capacità di voltarsi indietro per andare avanti è, a mio parere, la marcia in più che porta a nuove strade di creatività pura.”

“In a period, increasingly competitive in the research, but flattened in the style, I try to bring my projects to the roots of our culture. My goal is to satisfy a need, taking into consideration the research of beauty, harmony and aesthetics, combined with the functionality and usefulness of products. Thanks to our artistic culture placed at the apex of the world, We are genetically owners of charm and elegance: The ability to look back, for going on, is, in my opinion, the extra edge leading to new avenues of pure creativity.”
